ABOUT ME

DevSecOps Engineer in Eustema's R&D team, Lutech group. Over three years of experience, fully remote since April 2024. I build secure cloud platforms and AI infrastructure, combining research, experimentation, publications and open source contributions.

WORK EXPERIENCE

DEVSECOPS ENGINEER – EUSTEMA S.P.A. – 07/2025 – Current – ITALY

Fully remote.
- Built shared GitLab CI templates and Argo CD GitOps promotion, reusing the same image across environments with manual production approval.
- Integrated SBOMs, vulnerability scanning, provenance and Cosign signatures, verifying the signed digest before each promotion.
- Migrated MLflow while preserving data and endpoints. Operated Kubernetes LLM serving with KubeAI, vLLM, persistent storage and GPU allocation.
- Developed FastAPI microservices and shared configuration, audit and authorization libraries, with probes, JSON logging and tracing context propagation.
- Recovered 20% of cluster storage through assessment and archived PVC cleanup. Created documentation and workshops that enabled another team to run a pipeline independently.

DEVOPS DEVELOPER – EUSTEMA S.P.A. – 04/2024 – 07/2025 – ITALY

Fully remote.
- Built Coder remote workspaces on Kubernetes using Terraform templates, Docker and GPUs, and onboarded developers.
- Optimized a 130-document ingestion test from 4h06 to 2h43 with two replicas.
- Rewrote GitLab export automation: 149 projects exported to NFS. Managed Kubernetes services, backups and cloud-based test releases.

SOFTWARE DEVELOPER – EUSTEMA S.P.A. – 04/2023 – 04/2024 – ITALY

Hybrid.
- Containerized services and prepared Kubernetes manifests to move an AI platform from research to production on GKE.
- Ran Bandit SAST and load tests, contributing to the diagnosis of ingress, probe and service availability issues.

COMPANY INTERNSHIP AND EXPERIMENTAL CLOUD BURSTING THESIS – EUSTEMA S.P.A. – 10/2022 – 04/2023 – ITALY

- Developed a K3s cloud bursting proof of concept across two OpenStack environments, with containerized services and load tests based on Azure Functions traces.

EDUCATION AND TRAINING

2023
MSC IN COMPUTER AND ROBOTICS ENGINEERING University of Perugia

Data Science curriculum. Grade: 110/110 cum laude. Thesis on Kubernetes-based cloud bursting.

2020

BSC IN COMPUTER AND ELECTRONIC ENGINEERING University of Perugia

Grade: 99/110. Thesis on data center network architecture.

LANGUAGE SKILLS

Mother tongue(s): **ITALIAN**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C1	C1	C1	C1	C1
FRENCH	A1	A1	A1	A1	A1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

PROJECTS

Publications

First author of A System for Comprehensive Assessment of RAG Frameworks, arXiv technical report, 2025. Coauthor of Attribute-Based Management of Secure Kubernetes Cloud Bursting, IEEE Open Journal of the Communications Society, 2024.
arXiv 2504.07803 | IEEE DOI

Open source contributions

Merged pull requests in Coder, KubeAI and CheshireCat covering Helm, networking and container connectivity. I maintain personal cross-platform Docker projects, including money4band.
Coder #16032 | KubeAI #362 | CheshireCat #857 | GitHub MRColorR

TECHNICAL SKILLS

Areas of practice

Kubernetes and cloud: Kubernetes, GKE, AWS, Docker, Helm, Kustomize, Linux, NFS, MetalLB, NGINX Ingress.
CI/CD and GitOps: GitLab CI, Argo CD, promotion, rollback, multi-architecture builds, Terraform for Coder workspaces.
DevSecOps: Syft, Grype, Cosign, SBOM, signatures, attestations, Bandit SAST, Keycloak, JWT, RBAC.
MLOps and LLMOps: MLflow, KubeAI, vLLM, Ollama, NVIDIA GPU, MinIO, Langfuse, RAG, DeepEval.
Backend and data: Python, FastAPI, Pydantic, Bash, MongoDB, PostgreSQL, Elasticsearch, Neo4j, NATS, Temporal.
Observability and collaboration: OpenTelemetry, JSON logging, probes, load testing, documentation, onboarding.

CERTIFICATIONS AND COURSES

AI Agents Fundamentals

Hugging Face | 2025. Course completion certificate.

Microsoft Certified Azure Fundamentals AZ-900

Microsoft | 2023. Fundamentals certification.
