ABOUT ME

DevSecOps Engineer in R&D, Eustema - Lutech group. Fully remote since April 2023. I build secure cloud platforms and AI infrastructure, reducing manual work and aiming to create technology that helps people.

WORK EXPERIENCE

DEVSECOPS ENGINEER – EUSTEMA S.P.A. – 07/2025 – Current – ITALY

- Built GitLab CI templates and Argo CD GitOps promotion, reusing one image across environments with manual production approval.
- Integrated SBOMs, vulnerability scanning, provenance and Cosign signatures, checking the digest before promotion.
- Migrated MLflow preserving data and endpoints. Operated LLM serving with KubeAI, vLLM, persistent storage and GPUs.
- Developed FastAPI microservices and configuration, audit and authorization libraries with probes, JSON logging and tracing. Fixed Kubernetes shutdown so shutdown hooks completed.
- Recovered 20% of storage through assessment and PVC cleanup. Created templates and workshops enabling another team to run the pipeline independently.
- Designed a CRD and a Kopf operator for AI agents: 32 offline tests and eight test-cluster checks.

DEVOPS DEVELOPER – EUSTEMA S.P.A. – 04/2024 – 07/2025 – ITALY

- Built Coder remote workspaces on Kubernetes using Terraform templates, Docker and GPUs, and onboarded developers.
- Optimized a 130-document ingestion test from 4h06 to 2h43 with two replicas.
- Rewrote GitLab export automation: 149 projects exported to NFS. Managed Kubernetes services, backups and cloud-based test releases.

SOFTWARE DEVELOPER – EUSTEMA S.P.A. – 04/2023 – 04/2024 – ITALY

- Containerized services and prepared Kubernetes manifests to move an AI platform from research to production on GKE.
- Ran Bandit SAST and load tests, contributing to the diagnosis of ingress, probe and service availability issues.

COMPANY INTERNSHIP AND EXPERIMENTAL CLOUD BURSTING THESIS – EUSTEMA S.P.A. – 10/2022 – 04/2023 – ITALY

- Developed a K3s cloud bursting proof of concept across two OpenStack environments, with containerized services and load tests based on Azure Functions traces.
